Projects

PERSONAL PORTFOLIO WEBSITE

Technology Used: HTML,CSS and JavaScript
Created a responsive personal portfolio, which includes section transitions, animated background, with contact sheet incorporated in modal window. The project focused on creating components using vanilla method without any framework or library.

WEATHER APP

Technology Used: HTML,CSS, JavaScript and jquery
This project is a highly interactive weather application. It displays weekly weather forecast and weather news of the current location and locations searched through search bar. The apps data is extracted from open-weather API.

PERSONAL NOTES MAKER APP

Technology Used: HTML,CSS, JavaScript
This project is a personal notes maker app, the notes written by the user is stored in the browser's local storage which can be easily retrieved when user visit the main page every time
